

PRESS RELEASE – 21 JANUARY 2026

MD&M WEST 2026 – STOCKERT WILL BE THERE!

Anaheim, CA – February 3–5, 2026 – Stockert GmbH, a trusted partner in medical device development and manufacturing, is pleased to announce its participation at **MD&M West 2026**, one of the world's leading medical design and manufacturing trade shows.

From **February 3rd to 5th, 2026**, Stockert GmbH will welcome visitors at **Booth #2377**, where the company will showcase how it accelerates medical innovation worldwide. Attendees will have the opportunity to learn more about Stockert's expertise, technologies, and solutions that support the development and delivery of safe, and globally accessible solutions through advanced, minimally invasive therapy technology.

MD&M West brings together industry leaders, engineers, innovators, and decision-makers from across the global MedTech ecosystem. Stockert GmbH's presence underscores its commitment to collaboration, quality, and driving innovation that improves patient outcomes worldwide.

Visitors are invited to stop by **Booth #2377** to connect with the Stockert GmbH team and explore how the company can accelerate their next medical innovation.

STOCKERT WILL BE THERE!

We are excited to exhibit at MD&M West in February 2026 and look forward to connecting with you while showcasing how we accelerate medical innovation worldwide.

About Stockert

Stockert is one of the world's leading providers of high-frequency ablation systems for the treatment of cardiac arrhythmias. The company covers the entire value chain – from research and development, regulatory approval, and production to logistics and service. Several thousand Stockert systems are in use worldwide across 120 countries, distributed through internationally operating medical technology companies.

The Freiburg site continues to develop very positively: over the past twelve months, new jobs have been created and additional customers acquired. Stockert invests around 40% of its resources in the research and development of new technologies and therapies in order to continue bringing innovative solutions to the market in collaboration with partner companies.
